Installation accessories

Vent tray

The appropriate ventilation trays **are now included** with boiling chilled and sparkling, boiling and chilled, chilled and sparkling, and chilled G5 HydroTaps and **should always be installed** to ensure the product functions to it's full specification.

If space in the installation location does not allow use of the vent tray, the Zip Dual Exhaust Fan, SP93156, should be used in its place.

SP93156
Zip dual exhaust fan

The dual exhaust fan is recommended for installations where the supplied vent tray cannot be fitted. It is suitable for Zip HydroTap G5 boiling chilled and sparkling, boiling and chilled, chilled and sparkling or chilled models.

HE45004
Zip water block

Suitable for all Zip HydroTap products, the water block is recommended to be fitted in the water supply line.

Suitable for any G5 boiling chilled and sparkling or boiling and chilled models

W: 500 x H: 40 x D: 490-520 mm

*Replacement vent trays for G4 and G5 HydroTaps

SP93541*
Vent tray with adjustable depth

Suitable for any G5 chilled and sparkling or chilled models.

W: 500 x H: 40 x D: 490-520 mm

* Replacement vent trays for G4 and G5 HydroTaps

Taste filters and CO_2

Zip Water's range of filters transform ordinary tap water into water that everyone will love. Our 0.2 MicroPurity filtration is the most advanced on the market, filtering out particles more than one fifth of a micron in size - that's one five-thousandth (1/5000th) of a millimetre - 25 times finer than commonly used 5.0 micron filters. This produces crystal clear, great tasting water, free from odours and contamination including sediment, chlorine, heavy metals like lead, microplastics, bacteria and parasites (such as cryptosporidium and giardia).

Zip 0.2 micron filter cartridges
Zip 0.2 micron filter cartridges are located inside the HydroTap command centre so take no extra space

Zip filter cartridges are hygienically encased for fast and easy filter cartridge replacements. A white light on the tap will flash to indicate that the filter requires changing (available on Classic Plus models only).

There are different options for this, including:

93702 - Zip MicroPurity HydroTap Filter for Work 0.2 Micron (for HydroTap G4 and G5 post January 2017)

93703 - Zip MicroPurity HydroTap Filter for Work Heavy Duty 3 Micron (for HydroTap G4 post 2017 and G5)

ZT402 - 0.2 Micron MicroPurity Filter (G4 HydroTap pre January 2017)

ZT002 - Taste & Odour Filter (for G2 and G3 HydroTap pre 2016)

Zip CO_2 replacement cartridges:

91295 - CO_2 Replacement cylinders 2 x 1.2Kg. The twin pack gives approximately 380 litres of sparkling water.
