Masonry Drill Bits

Masonry Drill Bits

A premium quality masonry bit for use in cordless and corded drill drivers in both rotary and hammer action.

Ideal for drilling brick, block and concrete.

- 135° High Grade Industrial Carbide Tip
- Ground flute
- Silver/black finish
- Heat treated

MPG01

TCT Multi-Purpose Drill Bits

Designed to drill steel, wood, masonry, PVCu, ceramics and concrete.

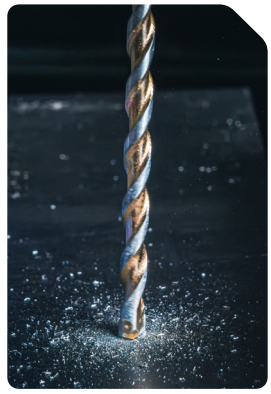

Diamond-ground cutting edges allow fast drilling even in hard materials.

ROTARY MODE ONLY.

- High quality European diamond ground carbide tip with 135° angle point
- High temperature copper brazed
- Ground flute
- Silver and gold finish
- Heat treated

Ceramic, Tile & Glass Drill Bits

Dry Diamond Drill Bits

Ideal for drilling a clean hole into hard materials such as porcelain, ceramic, marble, granite and glass.

ROTARY MODE ONLY.

- Up to 10x more holes
- Over 40% faster
- Vacuum brazed diamond technology
- Suitable for dry or wet use
- Wax insert aids cooling and prolongs life
- Non-slip hex shank

ATD01

How to use Dry Diamond Drill Bits

1. Ensure the drill bit is fastened securely in the chuck. Hold the drill firmly in both hands and start to drill at a 45° angle to the work surface. This will produce a small crescent shaped groove.

2. When the groove is formed, slowly bring the drill up to 90° to the work surface. The tool should carry on drilling through the material without slipping.

TCT Tile & Glass Bits

For accurate drilling of glass and ceramics.

A lubricant such as water is recommended when drilling glass.

Use the bit in ROTARY MODE ONLY at a low R.P.M.

- Cross ground, spear shaped Tungsten Carbide tip
- Shot blast finish
