Helical Bar

Frequently used in masonry joints for crack stitching and reinforcing.

Stainless steel for ultimate corrosion resistance.

EN845-1

Product Code	Ø (mm)	Length (mm)	Pack Qty (pcs)	Qty Break (packs)

Chemical Resin See page **98**
For helical grout for stitching & repairs.

Brick Reinforcement Coil

Produced for brick and block work reinforcement. It's primary usage is to prevent cracking.

For ultimate corrosion resistance use stainless steel.

Waterbar

A steel bar for fitting into door sills for weather protection.

Traditionally used with wooden doors, the water bar is fitted into the threshold so that the front door closes against it, sealing any gaps and preventing wind and rain from entering the property.

Helical Flat Roof Fixing

Hammer driven fixing frequently used for securing structural 6mm plywood composite insulation board to flat roofing systems.

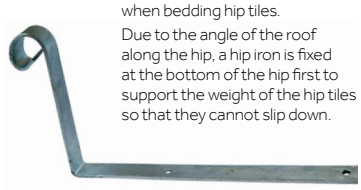

Made from high tensile steel, the fixing twists into timber without the need for pre-drilling.

Hip Iron

Provides a decorative restraint when bedding hip tiles.

Due to the angle of the roof along the hip, a hip iron is fixed at the bottom of the hip first to support the weight of the hip tiles so that they cannot slip down.
