>B< Press Inox Range

Conex | Bänninger
>B< Press Inox

>B< Press Inox is a stainless steel fitting, manufactured with a corrosion resistant steel material for aggressive water applications. A versatile press fitting system for use on stainless steel tubes in accordance with EN 10312- 1 & 2 and available in sizes 15 to 108mm.

Leak before press feature

Conex Bänninger has developed a unique leak before press feature, a specially designed EPDM O-ring. It has a reduced section in two positions causing leaks at low pressures when not pressed (from 0.1 to 5.0 bar). When the fitting is pressed, the O-ring material compresses, filling the gaps, securing a leak-free path. Therefore there is no need to go to full test pressure to check that all fittings have been pressed.

Applications & Technical Information	
Drinking water	Y
Heating and chilled water systems	Y
Compressed Air	Y
Available Sizes	15mm to 108mm
Warranty	5 years, 10 years with >B< press tube
Material	Stainless Steel EPDM O-ring
Max Operating Temperature	-35°C to 110°C
Max Hydrostatic Pressure	16 bar
Profile	>B< Profile 15-54mm Mprofile 76mm -108mm
