

Drywall Joint

Scrim Tape

- Self adhesive drywall joint tape
- Mesh tape saves considerable time, both in application and drying time
- Open weave construction allows moisture to evaporate quickly and evenly, thus preventing bubbles and blistering
- Unaffected by mould and will not absorb moisture
- Strong and hard wearing
- Available in a range of sizes suitable for most applications
- Eliminates the need for pre-plastering
- Woven from fibreglass bulk yarn and coated with anti-alkaline resin and adhesive solution
- Colour - White
- Mesh 75g/m^2
- Individually wrapped

Applications

For the permanent covering and repair of drywall joints, cracks and holes
